ABSTRACT

Data on generic professional and practical nursing programs are provided for New York State for 1980-1984. Attention is directed to: the number of applications, the number of new students admitted, total program enrollment, graduations by type of program according to sex and racial/ethnic origin of students, the number of unfilled places, and the number of qualified applicants whom the program could not accommodate. Information is provided for programs awarding diplomas and for the following degree programs: associate, baccalaureate, generic master's, and doctoral. Included are statistics on the performance of first-time candidates, based on the National Council Licensure Examinations for registered nurses and practical nurses in New York State compared to nationwide mean scores. Information is also provided on the number of nurse faculty members by type of program and full-time/part-time status, and faculty members' racial/ethnic origin. The data are presented for 5-year periods where possible and by Regents Planning Regions to enable comparison of trends and regional differences. (SW)

Foreword

This publication is the first of its kind and replaces the annual Educational Preparation for Practical and Professional Nursing. The 1984 annual reports submitted by schools of nursing to the Nursing Education Unit, Office of the Professions, were the source of these data. The annual report form was revised to permit computer analysis of the data and to gather more specific information according to the various types of nursing programs registered by the State Education Department. The cooperation of the schools of nursing in submitting these forms is commendable.

Nursing Education presents information on the number of applications received for nursing programs; the number of new students admitted, total program enrollment, and graduations according to sex and racial/ethnic origin of students; the number of unfilled places; and the number of qualified applicants whom the program could not accommodate. The report also includes statistics on the performance of first-time candidates taking the National Council Licensure Examinations for registered nurses and practical nurses in New York State compared to nationwide mean scores. Educational preparation of nurse faculty members is presented according to the types of nursing programs. The data are presented for five-year periods where possible and by Regents Planning Regions so that the reader can follow trends and observe regional differences. It is hoped that this more comprehensive report will be of assistance in statewide planning for nursing education to meet the nurse service needs in providing quality health care to individuals, families and communities throughout New York State.

APPENDIX
Glossary

1. New student: any student not previously enrolled in the nursing program at your institution.

2. Transfer student: any student who transfers from another curriculum in the institution or from another institution.

3. Admitted students: those who are formally enrolled and identified as nursing majors by the institution, whether or not enrolled in nursing courses.

4. Full-time students: any student enrolled in courses for 12 credits or more.

5. Part-time students: any student enrolled in courses for less than 12 credits.

6. Nurse faculty member: a member of the institution's faculty who teaches in the nursing program or functions in the administration of the nursing program. Exclude those faculty members who may teach a course to nursing students but who are not considered members of the nursing program faculty.

7. Full-time: a nurse faculty member who is employed full-time in the nursing program. Use your institution's definition in defining full-time status.

8. Part-time: a nurse faculty member who is employed in the nursing program for anything less than the number of hours required for full-time employment.

9. Faculty rank: the title held by a nurse faculty member, such as professor, associate professor, assistant professor, instructor, or lecturer.

10. Racial/ethnic categories:

    (a) Black, Non-Hispanic - a person having origins in any of the black racial groups of Africa.

    (b) American Indian or Alaskan Native - a person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.

    (c) Asian or Pacific Islander - a person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent or the Pacific Islands. For example, this area includes China, India, Japan, Korea, the Phillippine Islands and Samoa.

    (d) Hispanic - a person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race.

    (e) White, Non-Hispanic - a person having origins in any of the original peoples of Europe, North Africa or in the Middle East.

11. Professional Nursing Program - Title in the Education Law to describe programs which prepare for registered professional nurse licensure.

12. Practical Nursing Program - Title in the Education Law to describe programs which prepare for practical nurse licensure.
